

Tactical Laser Tag in Bryan/College Station

Tactical laser tag is a mission-based sport based on video games like Call of Duty.

You and your team will be given specific objectives (e.g., plant a bomb, control a point) and must work together to accomplish them, as well as work to prevent the other team from achieving theirs.

Our games promote strategy and teamwork, all while getting you off the couch and out of the house.

It's like paintball, but without the bruises.
