

THE UNIVERSITY OF NEW MEXICO

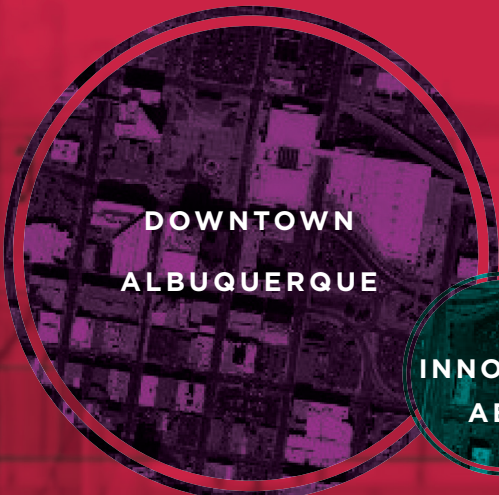

LOBO RAINFOREST BUILDING

WHY DO WE CALL
IT THE LOBO
RAINFOREST?

Like a rainforest, this is a delicate ecosystem—a fine balance of human creativity, business acumen, scientific discovery, and investment capital—brought together to nurture budding ideas. Ideas that grow into flourishing and sustainable enterprises.

Here, in the middle of Innovate ABQ, Lobos live, work and learn together. Learn more about the Lobo Rainforest Building and its living space online.
