

Engage in research & creative works!

UNIVERSITY
of HAWAII®
MĀNOA

Undergraduate Research Opportunities Program

Office of the Vice Chancellor for Research, University of Hawai'i at Mānoa

**UROP connects undergraduate students
with opportunities in research and creative
works across all disciplines at UHM via:**

- Project & Presentation funding
- Cohort-based Summer Undergraduate Research Experience (SURE)
- On campus venues for professional presentations
- Clearinghouse of undergraduate student opportunities on/off campus (COMING SOON)

My experience with UROP over the past school year has been a very positive one...I am truly thankful to have received this award in helping my undergraduate degree gain a stronger foundation towards future endeavors.

Eric Welch

MAJOR: Global Environmental Science

Kaelyn Schenkenberger conducts osteological analysis on human teeth in Guam.

Eric Welch does fieldwork in American Samoa in the Vaitele Stream on Tutuila collecting sediment load samples to test for the pesticide glyphosate.

Jorin Young performs theatre in Spokane, Washington.
