

Who Will Lead the Research of TODAY to find the Cures of TOMORROW?

You.

The University of Maryland Department of Veterinary Medicine's Veterinary Medical Science Program focuses on the research and curing of infectious disease that affect animals, humans, and industry.

Study with an international team of scientists and capitalize on the opportunity to collaborate with nearby institutions such as the DoD, NIH, USDA, and leading biotech firms.

Learn how you can be part of our fearless change. Join us at:
